With approximately 430 employees around the world, Carl Zeiss NTS GmbH develops, produces and distributes market-leading electron and ion-optical end customer systems and OEM products that are used in the material analysis, life sciences and semiconductor industries. Combined production, sales and service sites are located in Oberkochen, Germany and Cambridge, UK. Sales in Germany, the USA, France and England are handled by our own subsidiaries, supplemented by a global network of more than 40 distributors and service teams.

The Nano Technology Systems Division of Carl Zeiss SMT provides its customers with the latest leading-edge E-Beam technology. Within this division you will find over four decades of accumulated experience in the field of scanning electron microscopy and six decades of experience in the field of transmission electron microscopy.

The company's extensive know-how, which nowadays also comprises ion-beam technology and e-beam based analysis technology enable us to deliver innovative solutions for your business. Our global applications and service network guarantees fast, reliable and high quality support focussed on customer requirements. Combined with dedicated upgrade strategies, this will protect your investment for its entire lifetime. The core technology embedded in our innovative products enable us to provide solutions which add value to our customers' business.

Enabling the Nano-Age World®
